

BRIDGING CLINICAL INSIGHT AND PATIENT EXPERIENCE IN CANCER RESEARCH

● September 9th, 2025 ● 10am-1pm ● WHISTLER Rm 116

DESCRIPTION

Join us for a dynamic seminar bringing together two perspectives in cancer: leading oncologists sharing clinical insights, and survivors turned advocates highlighting the impact of survivorship. This seminar will feature: **Dr. Jordan Schmitt**, assistant professor of clinical medicine from Indiana University School of Medicine, a medical oncologist presenting a clinical case perspective. And a **Survivor & Advocate Panel** from the Catherine Peachey Fund, including Stephanie Leshner, Miriam Dant, Wendy Esterline, Carrie Cagnassola, Heather Pirowski, and Dr. Namita Agrawal. Together, they emphasize the power of collaboration across research, care, and advocacy. We invite you to connect, exchange ideas, and strengthen our shared commitment to advancing cancer care and research.

SCHEDULE

- 10:00 a.m. – Breakfast + Coffee and Opening Remarks
- 10:10 a.m. – Dr. Jordan Schmitt: Case Presentation from a Clinical Perspective and Q/A
- 11:10 a.m. – Survivor & Advocate Panel and Q/A
